West Nile virus:

**Avian Surveillance**

Through October 2006, Arizona Department of Health Services (ADHS) will accept dead birds for West Nile virus testing for the 2006 mosquito season. Persons who would like to submit a dead bird for West Nile virus testing should call (520) 740-2760.

Pima County residents reported twenty-one (21) birds to Consumer Health and Food Safety (CHFS) for possible testing for the presence of West Nile virus (WNV). Five (5) birds met the criteria set by Arizona Veterinary Diagnostic Laboratory (AVDL) for testing.

Currently in 2006, no birds have been reported as testing positive for West Nile virus.

### **Mosquito Surveillance**

Pima County has resumed its mosquito surveillance program. Mosquito traps will be set in designated locations to assess mosquito activity in Pima County. In support of the (ADHS) Mosquito Borne Virus Surveillance Program, mosquito specimens are sent to ADHS Vector Borne and Zoonotic Disease Section (VBZD) for identification and arbovirus testing.

The Mosquito Borne Virus Surveillance Program tests adult female mosquitoes for mosquito related diseases: Western Equine Encephalitis, St. Louis Encephalitis and West Nile virus. The testing is done weekly from March through October at selected sites through out the county. Results are normally received 2-3 weeks after specimens are submitted to the Vector Borne and Zoonotic Disease Section of ADHS.

Currently in 2006, no trap sites have been reported as testing positive for West Nile virus.

### **Community Relations Program**

No activity to report for May 2006.

### **Other activities:**

**Home Day Care Inspections – 6**

**Massage Establishments Pre-Operational Inspections - 2**
