West Nile Virus

Directions: Use the clues below to fill in the blanks in the crossword. When multiple words are used, there is a space between words.

Across

- 1. an infection which spreads to the brain (2 words)
- 5. WNV in the blood, sometimes without symptoms
- 8. horses and humans (3 words)
- 9. a disease which mosquitos carry between animals and/or humans (2 words)
- 10. Bacteria used to kill mosquito larvae
- 11. In WNV, the ___ is a bird

Down

- 2. controlling the adult mosquito population by spraying a killing agent (also called fogging)
- 3. weakness or loss of muscle tone (2 words)
- 4. controlling the mosquito population by poisoning immature mosquitoes in the water
- 6. viruses carried by arthropods
- 7. after being infected with WNV , the blood makes antibodies to the virus
